FBIS FOREIGN BROADCAST INFORMATION SERVICE

3 fiche

NOTE

JPRS publications contain information primarily from foreign newspapers, periodicals and books, but also from news agency transmissions and broadcasts. Materials from foreign-language sources are translated; those from English-language sources are transcribed or reprinted, with the original phrasing and other characteristics retained.

Headlines, editorial reports, and material enclosed in brackets [] are supplied by JPRS. Processing indicators such as [Text] or [Excerpt] in the first line of each item, or following the last line of a brief, indicate how the original information was processed. Where no processing indicator is given, the information was summarized or extracted.

Unfamiliar names rendered phonetically or transliterated are enclosed in parentheses. Words or names preceded by a question mark and enclosed in parentheses were not clear in the original but have been supplied as appropriate in context. Other unattributed parenthetical notes within the body of an item originate with the source. Times within items are as given by source.

The contents of this publication in no way represent the policies, views or attitudes of the U.S. Government.

PROCUREMENT OF PUBLICATIONS

JPRS publications may be ordered from the National Technical Information Service, Springfield, Virginia 22161. In ordering, it is recommended that the JPRS number, title, date and author, if applicable, of publication be cited.

Current JPRS publications are announced in Government Reports Announcements issued semi-monthly by the National Technical Information Service, and are listed in the Monthly Catalog of U.S. Government Publications issued by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Correspondence pertaining to matters other than procurement may be addressed to Joint Publications Research Service, 1000 North Glebe Road, Arlington, Virginia 22201.

EXTRACTS FROM HOXHA WORK 'LAYING THE FOUNDATIONS OF THE NEW ALBANIA'

Tirana ATA in English 0730 GMT 14 Nov-21 Nov 84

["Extracts" from Enver Hoxha's Memoirs: "Laying the Foundations of the New Albania"]

[14 Nov 84]

[Text] Part I

The monolithic unity of the Albanian people, embodied in the organisation of the democratic front-one of the most monumental works of the epoch of the party.

--Since its foundation the CPA pitched immediately into action to make the entire people conscious of and unite them in struggle against the occupiers.

Tirana, 14 November (ATA)--At the beginning of his book, "Laying the Foundations of the New Albania (Memoirs and Historical Notes)," Comrade Enver Hoxha speaks about the rich patriotic traditions of the Albanian people through centuries, about their readiness to be united in the struggle against the occupiers, these lofty virtues of patriotism became a great inspiration for the communists and the entire people to be united as a single body in the struggle for the liberation of the homeland from the foreign occupiers and the local traitors, Comrade Enver Hoxha speaks about the great work done by the Albanian communists after the founding of the party to strengthen the unity in the fold of the people, the links of the party with the masses, both in the town and countryside etc.

--Through all the centuries of their history, the Albanian people have always striven and fought to be united in the face of any invasion which threatened their freedom and the motherland.

Through all the centuries of their history, the Albanian people have always striven and fought to be united in the face of any invasion which threatened their freedom and the motherland writes Comrade Enver Hoxha in his book. This tradition was handed down from generation to generation as a great lesson and legacy, and precisely herein must seek one of the sources of the vitality of our people, of their ability to withstand the most ferocious and powerful
